

Panoblu RAD

Range Awareness Display

Panoblu RAD overlays real-time range indicators onto your live 360° view, giving captains and crew instant distance awareness in every direction. More than just a visual aid, it delivers real insight, helping prevent collisions, monitor blind spots, and enhance safety across and around the vessel.

THE NEW STANDARD IN SITUATIONAL AWARENESS FOR YACHTS

- Get instant, visible proximity indicators in the live 360° view.
- RAD shows true ranges to vessels, hazards and objects at the waterline.
- Provide crews with immediate, intuitive awareness for confident navigation, watchkeeping, docking, and anchoring, day and night.

RAD FEATURES

IMMEDIATE INSIGHT

Range markers extend up to the horizon.

REAL-TIME

Spatial awareness for rapid decision-making.

CONFIGURABLE

RAD can be configured to your yacht's preference.

DAY OR NIGHT

Supports both visible and thermal infrared views.
